In the dynamic and sometimes chaotic neonatal intensive care unit (NICU), evaluating satisfaction with care is essential for health care professionals and administrators to provide optimal quality care that is responsive to the needs of the consumer. Over the past several years, the caregiving environment of the NICU has been changing.

Journal of Neonatal Nursing | ScienceDirect.com

Most of us can think of a close friend or family member whose premature infant's life and health were saved by quality medical care received in a neonatal intensive care unit (NICU). Over the last 3 decades, NICUs have succeeded in saving ever-earlier and tinier premature infants. But some extremely low-birth-weight babies that survive live with devastating neurological and other deficits.
