Japanese Truck Engine Type List - Carpaydiem

It is Engine. I am working under a distributor. An Engine model: KA20DE 5 Speeds MT non turbo Engine start test finished. Compression, the pressure test are OK, too. The thing of the image is all? There is no check lamp lighting, Oil pans are broken and are missing, and there is no damage. There is not the conspicuous oil leak, too.

Setting Ignition Points

Many standard DOHC Nissan engines featured Variable Valve Timing, such as the VG30DETT, and as such do not use the 'V' designation. 'V' designation is only if the engine has variable valve lift. A good example of an engine where not all of the feature designation spots are used is the L28ET engine. The two features listed are electronic port ...

Ka20de Engine Specs

Valve clearance on cold engine: inlet and exhaust 0.28-0.36 mm. The engine has timing chain, which should be changed utterly rarely, usually every 180,000-200,000 miles of mileage (300,000 km). KA24 firing order is 1-3-4-2. Along with KA24DE, 2L KA20DE was produced. In 2004 KA24DE engine was substituted for more modern 2.5L QR25DE.

List of Nissan engines: Gasoline (Petrol) and Diesel

I used to set my points at exactly .018", but they didn't last long, and once I had to stop by the side of the road and file and reset them to get the engine running. Now I set them at .019". All engines are different, so you have to look for signs that your points are out of adjustment before you decide where your best setting is.
