What is KM? Knowledge Management Explained

The most important point in this story is that the CEO had the data, information, or knowledge (whatever you wish to call it) that she needed to make the decision. We can debate the decision, but at the end of the day, the most important issue is that the CEO had what she needed to make an important corporate decision.

I think it does matter. Knowledge management and information management are different. If somebody is working with information alone, and thinks they are doing knowledge management, then they are missing a huge opportunity. You cannot match the performance improvement benchmarks set by KM, from working only with information.
