D31PX-21A For Sale - Komatsu Equipment - Equipment Trader

I have a 2005 Komatsu D31PX -21A. The machine tracks won't turn forward or backward under 1200rpm. After all our testing we found out that the control valve for left and right track won't release the valve if the engine is under 1200rpm. Which means the control won't get any signal 1200rpm for releasing the valve. i'm not sure what is the problem.
