Timber framing and "post-and-beam" construction are traditional methods of building with heavy timbers, creating structures using squared-off and carefully fitted and joined timbers with joints secured by large wooden pegs. If the structural frame of load-bearing timber is left exposed on the exterior of the building it may be referred

Timber framing - Wikipedia

A successful ACO can trim the transactional costs of the FFS payment model, which has traditionally rewarded volume over value.

Some ACOs even replace FFS with alternatives such as capitation, a model involving fixed payments to providers for each patient regardless of whether they used medical services or not.

Compare and Contrast: ACOs vs. MCOs | George

photo source: Wikimedia Commons Although there were older maps drawn in ancient times, the pre-Socratic Greek philosopher Anaximander is often credited with being the first person to publish a map of the world. Unlike earlier maps – which featured roads, towns, and other geological features – Anaximander chose to show all of the inhabited lands known to the ancient Greeks.
