### Laravel Testing Decoded

While the principles of testing (and TDD) are language-agnostic, when it comes to execution, there are a variety of tools and techniques at your finger tips. This book is as much an introduction to TDD as it is a deep analysis of the Laravel way of testing applications. Updates will be free for life.

### itbook.download

When running tests via phpunit, Laravel will automatically set the configuration environment to testing because of the environment variables defined in the phpunit.xml file. Laravel also automatically configures the session and cache to the array driver while testing, meaning no session or cache data will be persisted while testing.
