education center. It's also good as a projector for gaming. Do you have an LCD projector?

## **How to buy a projector**

Pros: LCD projectors typically appear brighter and have better color accuracy. This leads to an image that seems

## Get Free Lcd Projectors Buying Guide

more sharp and vivid overall. The rainbow effect, caused by some DLP color wheels does not occur in LCD projectors. LCD projection is an older and, therefore, less expensive digital projector technology.
