Linguistic Typology: 1st Edition (Hardback) - Routledge
An important concept in linguistic typology is a linguistic universal. Universals make statements that are true of all languages, and may either be absolute (no language uses the raspberry sound phonemically) or implicational (languages with trial grammatical number also have dual grammatical number).

Linguistic Typology And First Language
Some additional intersections between semantic typology and first-language-acquisition research are explained, concentrating on issues of information packaging and lexicalization. The article then investigates two basic questions about first-language acquisition that intersect centrally with the concerns of linguistic typologists.

Chapter Linguistic typology - Forsiden
Morphological Typology and First Language Acquisition: Some Mutual Challenges. 13. The inflectional-fusional type differs from the agglutinating type in having a complex hierarchical branching system of inflection classes (cf. Dressler 2003), whereas the ideal agglutinating type has none.

Linguistic typology - Wikipedia
LINGUISTIC TYPOLOGY AND FIRST LANGUAGE ACQUISITION MELISSA BOWERMAN 1. INTRODUCTION The goal of studying first language acquisition is to determine how children learn to talk and understand, while the goal of linguistic typology is to discover deep regularities in patterns of variation across languages. Despite their different objec

Language Universals and Linguistic Typology: Syntax and ...
The Oxford Handbook of Language Typology provides a critical overview of work in linguistic typology. It examines the directions and challenges of research, and shows how these reflect and inform work on the development of linguistic theory. The handbook describes what typologists have revealed about language in general, and what they have discovered (and continue to discover) about the richly ...
