*radio frequency allocations, as well as enough bandwidth to support commercial, military and civil use. The antenna was designed and produced by an entrepreneur, who dedicated his professional life to experimentation and testing in order to produce such a superior product.*

*Magnetic Loop Antennas - resonant loop antennas ...*

*The antenna is about 30 metres from the shack and at the highest point of the garden. The loop was wound with 36 turns and centre tapped. The inductance was found to be about 3 mH. 30 metres of RG58CU has a capacitance of about 3000 pF, so with a pre-amp in the shack the highest frequency it could be tuned to was about 53 kHz.*

*Some call it a Skywire Loop Antenna, some call it a W0MHS Loop Skywire Antenna, nowadays it's called a Full Wave Loop Antenna but it still is a force to be reckoned with. In the first couple hours of having it up I was able to hear stations I could not hear before. The skywire loop is an excellent antenna - they can be a bit of work to get up in the air if you have a lot of obstacles (trees ...*
