Set up your Mac Mini as HTPC

As I feel like I post in all HTPC-based threads these days, the Mac mini is no longer a great HTPC, value-wise or otherwise (and take that someone who had been using minis since 2007 as an HTPC). Prior to the 2014 minis, the problem was a combination of the chipset and with the Haswell minis it's now the OS that's the issue.

New to mac mini htpc. - Kodi Community Forum

You do realise that the Mac Mini could run Win10, right? A late-2012 model is capable of running the latest version of Mac OS, and includes features that were reduced in the 2014 models-- which have non-upgradeable memory, no Firewire port and only included dual-core processors. That's why your i-7/2.3 Quad is still very desirable.
