Beginning with Lectra v8 , Lectra made a data file structure change and even older versions of Lectra are unable to open or import. This has caused such issue for Lectra users that Lectra has created a separate program called the Model Translator V8 to be able to convert the data to previous compatible versions of Lectra software.

Lectra Systems - an overview | ScienceDirect Topics

The base line is the horizontal or vertical line which all the pieces are orientated to, to begin with. But if a piece is rotated 45 degrees, it then becomes difficult to understand some of the values (e.g. Grading (resizing) values), so it is possible to add a grain line so that when the user looks at the garment in the marker it appears horizontal or vertical and the values become easy-to ...
