books through their mobile app called Libby.

Manipulation of the Spine, Thorax and Pelvis ... Manipulation of the thoracic spine can have the same effect as directly manipulating the cervical spine but has fewer complications. Another benefit of TSM is significant reduction in headache symptoms. As we all know, one of the many causes of headache is neck biomechanical disorder or lesion. This is classified as cervicogenic in nature.

One intervention, thoracic spine manipulation (TSM), continues to draw clinical and research attention. Three previous studies [29 - 31] have compared TSM to mobilization with outcomes favoring the group that received TSM.

Spinal manipulation - Wikipedia

SMT-1: High-Velocity Low-Amplitude Thrust Manipulation of the Cervical, Thoracic, Lumbar & Sacroiliac Joints. Current evidence will also be presented that underpins the use of spinal manipulation for cervicogenic headaches, cervicothoracic dysfunction, shoulder pain and

upper rib syndromes, acute and chronic low back pain, sacroiliac joint dysfunction, and mechanical neck pain.

***Spinal Manipulation to the cervico-thoracic spine, thoracic spine, ribs and lumbar spine
Spinal manipulation is an intervention performed on spinal articulations which are synovial joints, which is asserted to be therapeutic. These articulations in the spine that are amenable to spinal manipulative therapy include the z-joints , the atlanto-occipital , atlanto-axial , lumbosacral , sacroiliac , costotransverse and costovertebral joints.***
