Maplesoft Products. For over 25 years, Maplesoft has been delivering powerful tools for any application that requires math. Select from the following products to find out more about how Maplesoft products can help you.

Maple Tutorial - Michigan Technological University

Maple User Guide Maple is originally proposed as a testing tool for concurrent programs. During the development of Maple, we also built a dynamic analysis infrastructure as a foundation of Maple, which we believe will also be very useful for others to build their dynamic analysis tools for concurrent programs (e.g. data race detectors, atomicity violation detectors, etc.).
