To answer this question we must look into our evolutionary past, argues prominent psychologist David M. Buss. Based on one of the largest studies of human mating ever undertaken, encompassing more than 10,000 people of all ages from 37 cultures worldwide, The Evolution of Desire is the first work to present a unified theory of human mating behavior.

In this process, the writers do largely perpetuate the discourses of hegemonic masculinity. At the same time, however, they exhibit resistance to existing social representations, both by creating symbolic links to an alternative gay manhood and by constructing gay male sexuality as not necessarily outside of the realm of hegemonic masculinity.

Some Thoughts on Masculinity. by P.B. It has happened again. Once again male man has found a way to avoid appreciating the true talents that the Lord has given to women. This time they probably didn't do it consciously, as they have so often in ages gone past. The result is the same. In almost every culture womankind is regarded as inferior.
