Mathematics for Human Flourishing | The Mathematical Yawp

This is why many math curricula use spiraling: they come back to a concept the next year, the next year, and the next.This can be very good if not done excessively (for 5-6 years is probably excessive). However, spiraling has pitfalls also: if your child doesn't get a concept, don't blindly "trust" the spiraling and think, "Well, she gets it the next year when the book comes back around to it."

Webinar: Building Human Themes into your Teaching of Math ...

In this profound book, written for a wide audience but especially for those disenchanting by their past experiences, an award-winning mathematician and educator weaves parables, puzzles, and personal reflections to show how mathematics meets basic human desires—such as for play, beauty, freedom, justice, and love—and cultivates virtues essential for human flourishing.
