Bearings
Questions And
Answers

from B is 045° . The bearing of C from A is 135° . If $AB = 8\text{km}$ and $AC = 6\text{km}$, what is the bearing of B from C? $\tan C = 8/6$, so $C = 53.13^\circ$ $y = 180^\circ - 135^\circ = 45^\circ$ (interior angles) $x = 360^\circ - 53.13^\circ - 45^\circ$ (angles round a point) = 262° (to the nearest whole number) This video
