GBV-C: GB virus C, a virus first identified in 1995 that is genetically related to the hepatitis C virus but which does not cause hepatitis in humans. The exact role of GBV C in producing disease in humans remains unclear. Infection with GB virus C (GBV-C) may be beneficial to HIV-infected patients. There are studies suggesting that these patients enjoy longer survival if they are coinfecting ...

What is biomedical instrumentation? - Quora

A medical device is any device intended to be used for medical purposes. Thus what differentiates a medical device from an everyday device is its intended use. Medical devices benefit patients by helping health care providers diagnose and treat patients and helping patients overcome sickness or disease, improving their quality of life.
