In her work on the infant's phantasy world of beloved and persecuting internal figures, of envy, greed, jealousy and hate, and of devastating emotional turmoil, women such as Joan Riviere and Paula Heimann were her closest coworkers.

Biography of Psychologist Melanie Klein Biography  
Although Melanie Klein bases her theory on Freud, she contends that his suggested time frame is flawed, with the superego present from birth, and the oedipal complex occurring in the first year of life. Freud's concept of life and death forces (Eros and Thanatos) as primal human drives heavily color Klein's thoughts.
