MEM30012A - Apply mathematical techniques in a manufacturing engineering or related environment MSAENV272B - Participate in environmentally sustainable work practices The minimum requirements for achievement of the MEM50212 Diploma of Engineering - Technical are: Completion of the five (5) core units of competency, and

National Diploma: Engineering: Mechanical (NDEMC)

Engineering - Technical (Mechanical) Course no. 9154 Training Package/s: MEM05 Metal and Engineering Industry National Course Code: MEM50205 Course aim This course is for people aiming at employment in the metal and engineering industry in occupations at engineering technician level carrying out tasks such as mechanical engineering design.

Diploma of Engineering - Technical - MEM50212 - MySkills

MEM50212 Diploma of Engineering - Technical (Mechanical) This course will provide you with the practical skills and knowledge in electrical machinery, mechanical principles and mechanical equipment to produce drawings for design specifications.

Diploma of Engineering - Technical - TAFE Queensland

The Level 3 Advanced Technical Certificate, Diploma and Extended Diploma in Engineering are for learners who are looking to start in the engineering industry, covering a wide range of industry areas eg engineering design, innovation and new technologies, civil engineering, rail engineering and aerospace engineering.

SRTAFE: Mechanical Engineering

This course covers a comprehensive theoretical and semi-technical base for working in the mechanical, mechatronic, manufacturing and maintenance fields at a para-professional level. You will advance your skills in mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies.

Sanitary Sewer Design Technical Criteria Manual

Overview. Whilst there is probably not a serious shortage of theoretically oriented practitioners in mechanical engineering, there is a shortage of highly skilled practically oriented mechanical technologists and engineers in the world today, due to the new technologies only recently becoming a key component of all modern plants, factories and offices.

training.gov.au - MEM60105 - Advanced Diploma of Engineering

The minimum requirements for achievement of the MEM50212 Diploma of Engineering - Technical are: completion of the five (5) core units of competency listed below, and fifteen (15) elective units, to bring the total number of units to twenty (20) .
