How should I level a cement floor for peel-and-stick plank ...

Answers. Best Answer: There are 12 inches in a foot. So if your floor is 12 feet from north to south (length), then 12 times 12 inches (144) tells you how many inches long the floor is. 4 goes into 144 thirty six times, so there are 36 four-inch tiles along the length of the floor. If your floor is 14 feet from left to right (width),...
