What Is Mindfulness | Mindful Running

Brandon Alderman, lead author of the study, hypothesizes that meditation and running together might strengthen neural mechanisms in the brain. From writer Gretchen Reynolds in The New York Times : "We know from animal studies that effortful learning, such as is involved in learning how to meditate, encourages new neurons to mature" in the hippocampus, [Alderman] said.

My Running Meditation - Mindful Running | Jungbub Talk ...

If mindful running doesn't quite sound like your thing, there's nothing to stop you trying out the same principles with mindful walking instead. A mindful walk out in nature can have equally promising health benefits, with research showing that a break in nature can have a rejuvenating effect on the brain (Bratman et al, 2015).
