Oceans 101 | National Geographic

Mammals include humans and all other animals that are warm-blooded vertebrates (vertebrates have backbones) with hair. They feed their young with milk and have a more well-developed brain than other animals.

Animal Pictures and Facts

Polar bears live along shores and on sea ice in the icy cold Arctic. When sea ice forms over the ocean in cold weather, many polar bears, except pregnant females, head out onto the ice to hunt seals. Polar bears often rest silently at a seal's breathing hole in the ice, waiting for a seal in the water to surface.
