Cultural landscapes and protected areas: Unfolding the ...

A natural landscape is the original landscape that exists before it is acted upon by human culture. The natural landscape and the cultural landscape are separate parts of the landscape. However, in the 21st century, landscapes that are totally untouched by human activity no longer exist, so that reference is sometimes now made to degrees of naturalness within a landscape. In Silent Spring Rachel Carson describes a roadside verge as it used to look: "Along the roads, laurel ...

Natural sites - World Heritage | IUCN

Cultural landscape studies, as geographer Carl Sauer and the 'Berkeley School' developed them from the 1940s on, focused on the evolution of places and included the 'combination of natural and man-made elements that comprises, at any given time, the essential character of a place' (see Landscape Architecture). Cultural landscape studies emphasized the connection of natural environments and built interventions.
