Negotiating Gender Norms to Support Men in Psychological Distress Aisling Keohane¹ and Noel Richardson¹ Abstract Underpinning a general pattern of higher suicide rates in men is the assumption that men do not ask for help or utilize the health-care system during times of psychological distress. There has been a failure to grapple with the

CONTINUITY AND CHANGE: NEGOTIATING GENDER NORMS IN ...

Fluidity in gender norms Patriarchal normative frameworks, which attach authority and provide roles to men, continue to prevail across most rural communities. Unsurprisingly, our case study found it to be mainly men who learn about and avail of the latest agricultural technologies and practices.

Negotiating Gender Roles: Gender Differences in Assertive ...

Traditional courtship norms delineate distinct gendered behaviors for men and women based on the model of a dominant, breadwinning male and a passive, dependent female. Previous research shows, however, that as women have increased their access to earned income, there has been a rising ideological and behavioral commitment to egalitarian relationships.
