May, 2006 Price \$5.50 USA Operation Manual Capacitor Discharge (CD) stud welding is a form of welding in which the energy re- quired for the welding process is derived from a bank of charged capacitors. This stored energy is discharged at the base of the specially designed CD stud and it fuses the stud to the base material.

Nelson Stud Welding New Zealand World Leaders in Stud Welding. Stud welding is an electric arc welding process, providing a bond

or weld that is stronger than the metal of the stud and the work.

Nelson Stud Welder Manual

Nelson ® stud welding's rich history began in 1939 with the U.S. Navy. Edward "Ted" Nelson ® invented the stud welding process at the Mare Island shipyard in Vallejo, California, as a means to speed production of shipbuilding. The first application was to secure wood decking on submarines, but was quickly adopted and used on battleships and aircraft carriers.
