Nervous System Anatomy and  
Physiology The nervous  
system is involved in some  
way in nearly every body  
function. All the  
sensations, actions, and  
emotions are made possible  
by the nervous system, which  
consists of the brain,  
spinal cord, nerves, and  
sensory receptors.

Nervous system practice test. First things first: you're going to need to get in some practice. After some initial reading around the subject (we recommend our article on The Nervous System), one of our favorite ways to get acquainted with a new anatomical topic is with a labeling exercise. Think of it as a sort of nervous system practice test run.
