Neurology Clinical Practice Guidelines Summaries
Neurology guidelines must be created for the two major divisions, as well as all subspecialties that fall under those divisions. For example, while multiple sclerosis (MS) falls under the central nervous system, guidelines must be created that are specific to MS and are differentiated from epilepsy, which also falls under the central nervous system.

Neurology Clinical Practice Guidelines - 2018 Year in Review
American Academy of Neurology (AAN) members assign high value to clinical practice guidelines. In a 2006 needs assessment survey, 82% of members rated guidelines as " important " or " very important. " 1 Moreover, a 2009 survey of a representative sample of AAN members found that 75% used 1–6 AAN guidelines in the past year.2 However, the AAN has received feedback suggesting that ...
