Office Practice of Neurology | ScienceDirect
Principles and Practice of Restorative Neurology is a collection of topics in clinical neurology where progress through research has brought concepts of patient management. The collection emphasizes research done clinically and in experimental laboratories and attempts to discuss restorative neurology in the larger context, encompassing biology, neurobiology, and rehabilitative engineering.

Table of Contents - April 14, 2020, 94 (15 ... - Neurology
Neurological practice relies heavily on the field of neuroscience, the scientific study of the nervous system. A neurologist is a physician specializing in neurology and trained to investigate, or diagnose and treat neurological disorders. Neurologists may also be involved in clinical research, clinical trials, and basic or translational research.

Neurology The Science And Practice
While science is primarily data-driven, art is steeped in emotion and humanity. Both science and art embrace ideas and offer a means of investigation. This issue of Neurology® Clinical Practice features articles that reinforce the importance of science and art in the practice of neurology, particularly in the patient/physician encounter.
