NEW BOOKS: "Noise: Living and Trading in Electronic Finance"

What is a 'Noise Trader'. Noise trader is generally a term used to describe investors who make decisions regarding buy and sell trades without the support of professional advice or advanced fundamental analysis. Trading by noise traders tends to be impulsive and based on irrational exuberance, fear or greed.

gleaming downtown skyscrapers.

Noise in Strata Buildings - ocn.org.au

Residential noise. Noise pollution is sound at a level that is annoying, distracting or physically harmful. This can mean different things to different people. In residential areas, an acceptable level of noise for one person may be unacceptable to another. It can also depend on the time of the day and the nature of the noise.
