Oil Painting Techniques And Materials
Traditional oil painting techniques often begin with the artist sketching the subject onto the canvas with charcoal or thinned paint. Oil paint is usually mixed with linseed oil, artist grade mineral spirits, or other solvents to make the paint thinner, faster or slower-drying.(Because these solvents thin the oil in the paint, they can also be used to clean paint brushes.)

Before mixing your oil colours, it is worth
spending a little time thinking about the
type of surface that you intend to put the
colours on. The most common surface for
oil colours and one that has been used for
centuries is stretched primed canvas.
