***Optimization of Logistics eBook by Alice Yalaoui ... The integrated logistics network optimization model is usually solved with bi-level programming; the upper level in this formulation searches for the optimal combinations of policy measures, whereas the lower level considers the behavior of network users when selecting logistics service routes (Nagurney and Toyasaki, 2003, Rudi et al., 2014, Zhang et al., 2015a, Zhang et al., 2015b).***
