Is there a way to set the property for Initial Value of a date field through OAF page personalization? I can go into personalizations and Hardcode the date at Site level and make it display when I go into the page, but I need to set it with a view attribute so that the appropriate date displays according to the value in the VO, instead of one hard code date for all.

Due to its declarative nature and durable architecture, the OA Personalization Framework continues to be recommended as the primary means for customizing OA Framework based applications. The supported capabilities, methods and tools for performing personalizations are documented in the Oracle Application Framework Personalization Guide.

Oracle Application Framework Personalization Guide
OA Framework includes the OA Personalization Framework which allows you to personalize an Oracle E-Business Suite application page without modifying any underlying code. Personalizing the appearance of or the data displayed in an OA Framework-based page is easy and straightforward.

OAF Developer Guide | Welcome to My Oracle World
• Personalization UI is initiated from running application. • Simple UI to specify changes • Profile options control who can do personalizations. • Access from Personalize Page link • Any screens built with the OA Framework can be personalized. • Use Form Personalization for forms built using Oracle Forms (covered in session S281409).

Oracle Application Framework Personalization Guide
Personalization. OA Framework was designed with durable personalization capabilities. Durability of OA Framework personalization is largely attributed to the declarative architecture and the object-oriented approach underlying the implementation. Declarative UI component definitions are stored in the form of meta-data in a database repository.
