The American Journal of Physical Anthropology (AJPA) is the official journal of the American Association of Physical Anthropologists. The Journal is published monthly in three quarterly volumes.

Outline of anthropology - Wikipedia

Biological anthropology focuses on the physical aspects of the human species. Biological anthropologists explore human evolution, health and disease, and the behavior of nonhuman primates. They also work in the relevant areas of human genetics, diet and nutrition, and the impact of social stress on the body.

comparative study of humanity. It is the systematic exploration of human biological and cultural diversity.

Examining the origins of, and changes in human biology and culture, anthropology provides explanations for similarities and differences.

Physical Anthropology Lesson 1

Abstract. A method of drawing outlines of the distal end of the humerus is presented and carried out on some pongids (*Pan troglodytes*, *Pan paniscus*, *Pongo pygmaeus*), on modern man, and on some casts of Plio-Pleistocene hominids. It appears that these outlines are good indicators of the overall morphology and permit the distinguishing...

Outline of anthropology. The following outline is provided as an overview of and topical guide to anthropology:

Anthropology – study of humanity.

Anthropology has origins in the natural sciences, the humanities, and the social sciences. The term was first used by François Péron when discussing his encounters with Tasmanian Aborigines.

Syllabus - Physical Anthropology

Anthropology is the study of human groups and cultures, both past and present. Anthropology shares this focus on the study of human groups with other social science disciplines like political science, sociology, and economics. What makes anthropology unique is its commitment to examining claims about human 'nature' using a four-field approach.
