Palliative Care Ethics: a Good Companion Fiona Randall and R S Downie, United States, Oxford University Press, 1996, 195 pages, £16.95pb, £30hb. Written jointly by a consultant in palliative medicine and a professor of moral philosophy, this book represents a profound treatise on many aspects of palliative care. The authors, modestly, call it a companion ...

Palliative Care Ethics: A Companion for All Specialties ...

Palliative care is a recent branch of health care. The doctors, nurses, and other professionals involved in it took their inspiration from the medieval idea of the hospice, but have now extended their expertise to every area of health care: surgeries, nursing homes, acute wards,

and the community.

Palliative Care Ethics A Companion

Palliative Care Ethics, in this second edition, is now more user- friendly and includes genuine case histories to illustrate ethical issues in the real world. The authors have expanded the section on rationing in response to the changing health care environment and confront the issues of patient rights to a far greater extent.. There is also a new chapter covering terminally ill children.

Palliative Care: An Ethical Obligation - Markkula Center ...

Palliative care is therefore faced with more ethical problems than other areas of health care. This book, by a clinician, teacher, and writer on health care ethics, has been written to provide all those who care for the terminally ill--doctors, nurses, social workers, clergymen, physiotherapists--with the concepts and principles which will assist them with difficult decisions.
