Geo-paper totem!! | MINI ECO

The way i design paper toys is to work at them in a 3d modelling program and then export to another program that breaks them down into nets that you can print off and assemble. I'm not saying this is the only way, there are people out there that design completely using pen and paper.

3D Farm Character Bundle, Layered Papercut SVG, 3D Tractor ...

I highly recommend printing the nets on stock paper rather than regular paper. I have tried it both ways, and regular paper is just too flimsy. After printing, simply cut out the 3d shape nets on the solid lines.. If you've printed on white card stock as I have, take some time to get creative and color or decorate the shapes before assembling them! This could make a great math art project!
