Lightheadedness: Persistent Lightheadedness
Persistent postural-perceptual dizziness (PPPD) is a newly defined diagnostic syndrome that unifies key features of chronic subjective dizziness, phobic postural vertigo and related disorders. It describes a common chronic dysfunction of the vestibular system and brain that produces persistent dizziness, non-spinning vertigo and/or unsteadiness. The disorder constitutes a long-term ...

Recurring Vertigo Manual Guide
Vertigo associated with benign paroxysmal positional vertigo is treated with the Epley maneuver (otolith repositioning) done by an experienced practitioner. Meniere disease is best managed by an otolaryngologist with training in management of this chronic disorder, but initial management consists of a low-salt diet and a potassium-sparing diuretic.
