It also expounds Plato's theory of human nature. [The philosopher Alfred North Whitehead famously said that all of philosophy is just footnotes to Plato.] Metaphysical Background: The Forms - Plato is not a theist or polytheist, and he is certainly not a biblical theist.

Summary of Plato's Theory of Human Nature | Reason and Meaning

Plato was a philosopher during the 5th century BCE. He was a student of Socrates and later taught Aristotle. He founded the Academy, an academic program which many consider to be the first Western university. Plato wrote many philosophical texts—at least 25. He dedicated his life to learning and teaching and is hailed as one of the founders of Western philosophy.

Plato's Natural Philosophy: A Study of the Timaeus-Critias ...

Like Socrates, he was interested in moral, not natural philosophy. He believed that the heads of government should be "philosopher kings" and developed a course of study stressing abstract thought for their education in the Republic. Plato advocated the "quadrivium" (the four

Platos Natural Philosophy A Study

The view that natural philosophy contains an ethical lesson is not unique to Plato, but it is not clear that Aristotle endorsed it. Indeed, it is possible to develop an interpretation of Aristotle according to which natural philosophy and ethics represent two distinct,...

Plato's Natural Philosophy: A Study of the Timaeus-Critias ...

Natural philosophy, as distinguished from metaphysics and mathematics, is traditionally understood to encompass a wide range of subjects which

Aristotle included in the physical sciences. According to this classification, natural philosophy is the science of those beings which undergo change and are independent of human beings.

Natural philosophy - Wikipedia

Aristotle had a lifelong interest in the study of nature. He investigated a variety of different topics, ranging from general issues like motion, causation, place and time, to systematic explorations and explanations of natural phenomena across different kinds of natural entities.
