Policy Instruments for Environmental and Natural Resource Management

(PDF) Policy Instruments for Environmental and Natural ...

In this article, we discuss the policy instruments for environmental protection. (A) The Polluter Pays Principle (PPP): For the last two decades, many economists have suggested that firms discharging polluting effluents to the environment should somehow be made to pay a price for such discharges related to the amount of environmental damage caused.

(PDF) Policy instruments for environmental innovations ...

When European environmental policies were first developed, many policy instruments focused on specific environmental problems. Since no single policy instrument can provide solutions to all problems, the spectrum of policies has broadened gradually to address increasingly complex environmental and health related problems. Today, many environmental policy interventions combine:

Policy instruments for sustainability - Environmental Justice

The importance of economic instruments for environmental policy is emphasized in both the Rio Declaration and Agenda 21, where it was stressed that the use of economic instruments represents a tool for national authorities to promote the internalization of environmental costs and to apply the polluter-pays principle in the most efficient manner.
