the ability to run multi-core processors and address more than the 512 MB of memory constraint in previous versions.

Windows Embedded - Wikipedia
Windows Embedded Compact, formerly Windows Embedded CE and Windows CE, is an operating system subfamily developed by Microsoft as part of its Windows Embedded family of products.. Unlike Windows Embedded Standard, which is based on Windows NT, Windows Embedded Compact uses a different hybrid kernel. Microsoft licenses Windows CE to original equipment manufacturers (OEMs), who can modify and
