superluminal, FTL or supercausal) communications and travel are the conjectural propagation of information or matter faster than the speed of light.. The special theory of relativity implies that only particles with zero rest mass may travel at the speed of light. Tachyons, particles whose speed exceeds that of light, have been hypothesized, but their existence would ...

The William Lowell Putnam
Competition is an annual math
contest for undergraduate students
held on the first Saturday of
December. While most Putnam
problems require calculus, linear
algebra, or more advanced
mathematics, there are several
good Putnam problems that don't
require anything beyond high-
school math and effective problem
solving.

Objective: Schizophrenia (SZ) is a functional mental condition that has a significant impact on patients's social lives. As a result, accurate diagnosis of SZ has attracted researchers's interest. Based on previous research, resting-state functional magnetic resonance imaging (rsfMRI) reported neural alterations in SZ. In this study, we
