Honda Engines | Recalls and Product Updates

I have a strange problem with my Honda GX390, 13HP engine. I replaced the carb. with a working one it did not help. The engine seems to run fine in low RPM. Once I open the throttle it dies. No problem to restart. Maybe there is an air leak but I can't figure it out where can it happen other than the carb.

Honda GX390 K1 (389 cc, 13.0 HP) engine: review and specs

Re: Honda GX390 wont stay running Yeah, just went thru that with a GX340 engine on my pressure washer - the thing acted like a fuel problem. It would start and run OK at idle, but under load it would run maybe 15-20 seconds and die - if I was quick enough, choking it

Honda GX390 wont stay running - TractorByNet

I have a Honda GX390 generator with very low run time but it's about 10-15 years old. Lately it starts great, idles fine, full speed under no load is also good but once I put a meaningful load on it the engine dies out, stutters and/or bogs down. It is not fuel or carburation. (I rebuilt the carb and I also replaced the carb with no change).
