## Honda Engines | Recalls and Product Updates

I have a strange problem with my Honda GX390, 13HP engine. I replaced the carb. with a working one it did not help. The engine seems to run fine in low RPM. Once I open the throttle it dies. No problem to restart. Maybe there is an air leak but I can't figure it out where can it happen other than the carb.

This tells me if it's a engine problem or pump problem. Most of the time I find the pump was ran low of oil or with water contaminated oil (internal seals leaking) ...

Honda GX390 wont stay running - TractorByNet

I have a Honda GX390 generator with very low run time but it's about 10-15 years old. Lately it starts great, idles fine, full speed under no load is also good but once I put a meaningful load on it the engine dies out, stutters and/or bogs down. It is not fuel or carburation. (I rebuilt the carb and I also replaced the carb with no change).

Honda GX390 K1 (389 cc, 13.0 HP) engine: review and specs

Re: Honda GX390 wont stay running Yeah, just went thru that with a GX340 engine on my pressure washer - the thing acted like a fuel problem. It would start and run OK at idle, but under load it would run maybe 15-20 seconds and die - if I was quick enough, choking it would SOMETIMES keep it from dying.

Honda GX-270 engine problems

Wondered if anyone has ever come across this problem before. Just acquired a Honda GX390 13HP engine, bought it blind so expected to find something wrong. On pulling the starter rope the engine reaches the compression stroke but won't turn over the compression stroke.
