Procedural errors in endodontics;
aetiology, prevention ...

The reason many teeth do not respond to root canal treatment is because of procedural errors that prevent the control and prevention of intracanal endodontic infection (Lopes & Siqueira 1999).

Acces PDF Procedural Errors In Endodontics Aetiology Prevention

Undoubtedly, the major factors associated with endodontic failure are the persistence of microbial infection in the root canal system and/or the periradicular area (Nair et al . 1990a , Lin et al . 1992).
