### SIGPLAN Conferences

Programming languages provide the building blocks for the world ' s computer software. Unfortunately, poorly designed and implemented languages are endemic, which leads to costly inefficiencies and threats to safety and security. Our research focuses on the correct, reliable and efficient implementation of languages.

### Programming language - Wikipedia

The PLDI conference seeks original research papers that focus on practical issues in the design, development, implementation, and use of programming languages. Emphasis is placed on novel language designs, innovative and creative approaches to compile-time and run-time technology, and results from experimental studies of actual implementations.
