Psychology and Deterrence - Robert Jervis, Richard Ned ...

Prospect theory is an empirical model of choice that stands as the leading alternative to rationality for explaining decisions under conditions of risk. While many still defend the assumption of rationality as an appropriate starting point for the construction of international relations theory - deterrence theory especially - there is growing support for models of international politics ...

**Deterrence in relation to
criminal offending is the idea
or theory that the threat of
punishment will deter people
from committing crime and
reduce the probability and/or
level of offending in society. It
is one of five objectives that
punishment is thought to
achieve; the other four
objectives are denunciation,
incapacitation (for the
protection of society),
retribution and rehabilitation.**
