Work is the product of force and displacement. In physics, a force is said to do work if, when acting, there is a movement of the point of application in the direction of the force.. For example, when a ball is held above the ground and then dropped, the work done on the ball as it falls is equal to the weight of the ball (a force) multiplied by the distance to the ground (a displacement).

Work Experience . Q1: Are the definitions of subsidized employment, work experience, and on-the-job training the same between the TANF Program, the Department of Labor, and the Native Employment Works Programs? A1: No. The NEW regulations (and statute) do not define subsidized employment, work experience, or on-the-job training for grantees' NEW programs so tribes have flexibility in doing so.
