@JOJO Mr. Mims has been writing Books about Electronics For At Least 40 Years!! He was a HUGE Contributor of Electronic Hobbyist Books in which he wrote for Radio Shack at a time when lots of young people were into Electronics (Unlike Today) I purchased His Book Called Transistors

Radio Shack Electronics Learning Lab

This is now the archive site for the SolderSmoke Podcasts. It will be updated periodically, but new podcast episodes will be announced . via the blog: <http://www.soldersmoke.com>

Ladder Line | KV5R.COM

An electronic motion detector contains an optical, microwave, or acoustic sensor, and in many cases a transmitter for illumination. However, a passive sensor senses a signature only from the moving object via emission or reflection, i.e., it can be emitted by the object, or by some ambient emitter such as the sun or a radio station of sufficient strength.
