Read WS-Addressing - Oracle

I would try taking the 3 reduction gears out and wiping them off with a rag, only 1 gear is read by the eye. If the foil is damaged on it just move them around so the eye is reading a good one and make sure the board and cage is locked in correctly. If that does not fix it, the board may need to be replaced.

READWS

The WS-Addressing specification defines a transport-independent standard for including addressing information in SOAP messages. The Enterprise Gateway can read WS-Addressing information contained in a SOAP message and subsequently use this information to route the message to its intended destination.
