Reef Fish Identification Florida Caribbean

The banded butterflyfish (*Chaetodon striatus*) and the foureye butterflyfish (*Chaetodon capistratus*) are only two of the numerous species of butterflyfish found on Caribbean reefs. You can easily distinguish the banded butterflyfish by the black bars (vertical stripes) on its side.

?Reef Fish Identification - Florida Caribbean Bahamas on ...

Reef Fish Identification Florida Caribbean Bahamas first appeared in 1989 and has since revolutionized fishwatching. The first edition had 288 pages and 345 color photographs. The success of our first publication launched a series of marine life identification books for the Galapagos Islands, the West Coast of the United States, the Gulf of California to Panama and the Tropical Pacific.

Suitable for underwater naturalists and marine scientists, this edition contains 825 classic marine life photographs of 600 common and rare reef fish species. Designed for divers, it makes it easy to identify the myriad fishes that inhabit the waters of Florida, the Caribbean, Bahamas and Brazil.

ReefNet Inc. | Reef Fish Identification - Interactive Edition

"Reef Fish" is the best book I have found for identifying fish in the Caribbean, Bahamas and Florida. It relies on color photographs of each species, with descriptions and information on where they can be found and how they react to divers. This book is one of a three part series. The other two are "Reef Creatures" and "Reef Coral".

Reef Fish Identification: Florida Caribbean Bahamas by ...

Reef Fish Identification - Florida Caribbean Bahamas This book is an underwater home run! We travel a lot (most divers do, duh) and carrying a laptop was required after the books were made available electronically.
