**Renewable And Non Renewable  
Energy Sources Environmental ...  
Knowing whether a source of  
energy is renewable or non-  
renewable is important when  
considering energy and/or  
sustainability. Renewable energy is  
defined by the U.S. Environmental  
Protection Agency thus:  
“Renewable energy includes  
resources that rely on fuel sources  
that restore themselves over short  
periods of time and do not  
diminish” (Source: U.S. EPA).**
